

## MAX 14 PELLETS

MAX 14 pellets are a ruminant ration formulated for **backgrounding and supplemental feeding of cattle, sheep and goats**. **The pellets can also be used to maintain animals** during times of very limited pasture quantity and quality or drought conditions. This product is derived from the blending and pelleting of Vegetable meals & high effective fibre products.

Specifications (Dry Matter Basis)	
Moisture (Maximum)	14.0%
Protein (Minimum)	14.0%
NDF (Fibre - Minimum)	40.0%
Durability (Minimum)	90.0%

### Feeding Guidelines

MAX 14 pellets are safe to feed free access to beef and dairy cattle, sheep and goats under limited pasture or drought conditions or as a starter ration due to its high level of effective fibre, which ensures rumen health and cud chewing. Consult your nutritionist for recommended inclusion levels and feeding rates.

Typical Analysis*	
Dry Matter	90.0%
Protein	14.5%
NDF	45.0%
ADF	35.0%
Fat (oil)	5.0%
Metabolisable Energy ruminants	9.6 MJ/Kg

#### Additional Information:

- ✓ Feed in troughs/self-feeders or by trailing every 2 to 3 days at a rate that will maintain the desired body weight and condition of the intended stock.
- ✓ Ensure animals have plenty of fresh clean water available for drinking at all times.
- ✓ Preferably use within 6 months of purchase.
- ✓ Store in a cool dry place.
- ✓ This product does not contain restricted animal material.

\* There may be variations of composition depending on seasonal conditions and raw material source.
